Camp AuSable Hosts Encampment for Blind

[By Gayle Packard]

During the week of August 3 - 8, Camp AuSable held an encampment for the Blind and visually handicapped children from ages 8 to 19. All children are eligible regardless of race, creed, color, economic status or sex.

The National Camps for the blind is a free service of the Christian Record Braille Foundation, Inc., located at 4444 South 52nd Street, Lincoln, Neb. Tom Lowe, Jr. is the Director of the Christian Record Braille Foundation Inc. and Frank Peterson who is director of the National Camps for the Blind. Both men attended along with additional staff members, for the camp. The total kids attending were approximately 45 kids.

Camps for the blind children have been held by the Foundation since 1967 when the first camp was conducted in Florida. In 1974 a total of 20 camps were held with 968 children attending.

Among the activities of the camp are swimming, water skiing, crafts, horseback riding, beeper ball, archery, camp fires, camp council, talent night, eating, hiking (the kids are guided by ropes), tumbling, nature walks, and "Touch and Feel."

The objective of the camps is to have fun. With supervised activities these kids are able to do things they don't normally do at home. Most parents overprotect their blind children more so than their normal children. So when these kids do something worthwhile themselves, it is quite an experience to them. Doing things themselves, develops a little more self-confidence, and the more they get the better. Then when they go home they have something to tell Mom and Dad.

The rest of the staff that attended the Blind camp were Joan Randle, of Detroit; Dan Papke, of Pearson; Mr. and Mrs. Burt Randall, of Newaygo; and Lester Rilea who is full time director of Camp AuSable. Also all the counselors who help supervise activities and stay with the kids in their sleeping quarters.

Family and friends are invited on Wednesday afternoon and for the Talent program in the evening.

The aim for the Foundation is to have enough camps across the U.S. to give every blind child the opportunity to attend.

T. U. Sponsors Fly Casting Clinic

[By Carol Wert]

Directors of the George Mason Chapter of Trout Unlimited entertained local Boy Scouts at an outdoor picnic last week. Following the cook-out at which Scouts demonstrated their ability to prepare and cook a tasty picnic lunch; T. U. members instructed youngsters in the art of fly fishing.

While no one expects every fly fishing clinic to immediately convert anglers of the future to this method of fishing, Trout Unlimited is presenting a program for the Grayling area which hopefully will be helpful to all who would like to know more about the sport of trout fishing.

The Mason Chapter of T. U. has on hand the necessary equipment to conduct fly fishing schools; and will be pleased to assist anyone who wish to receive instructions. Area youngsters are reminded that additional classes have been scheduled with local Boy Scouts; also instructions will again be presented with the co-operation of Crawford Ausable Schools.

School students keen in mind that fly fishing instructions will be offered to both boys and girls. Physical Education instructors co-operating with T. U. members will arrange classes so that all interested students can be included in the program.

The sport Fly Fishing offers to the angler much more than just fishing for the trout. This method presents a real challenge, a battle of wits so to speak, knowledge of nature is increased and respect for trout waters and all aquatic life there-in quite naturally follows.

Fly tying and rod building can become an added attraction bringing great satisfaction to every angler who pursues the sport. Fooling the wary Trout with your own creation of a properly presented imitation insect - and bringing the fish to net with a rod you have assembled yourself from one of the many rod kits now available; is the ultimate reward to many anglers. Whether fish is created or released is the choice of the individual.

As the future of Trout Fishing will soon be in the hands of our young people. Respect for Trout and the habitat, by using and not abusing our fragile streams guarantees this form of recreation may be enjoyed by generations yet to come.

An Open Letter
To All Of
Crawford County:
On behalf of the Grayling Mill Town Festival Committee, I wish to commend those organizations and people of our area who participated in the 2nd Annual Mill - Town Festival. Many of our events were very successful because of the complete cooperation of their respective committee members as well as the enthusiastic people who frequented and took part in those events. To those we extend our appreciation for their efforts in behalf of Grayling's Mill-Town Festival.

Obviously there are committees and events which were not successful, and those areas must be strengthened. To do this we need committee members...why not volunteer right now to work on the 1976 Festival...the first meeting is on September 15th, 7:30 p.m., in the Council Chambers of the Grayling City Building. If we want our annual festival to be as strong as those of our neighbors; i.e., Gaylord, Kalaska, Traverse City, etc., we must have the full cooperation of all of Crawford County. Please.....

Again, a big thank you to those who did aid us so efficiently and enthusiastically. Mary Elaine Harland, Pres. Grayling Mill-Town Festival Inc.

To the Editor:

Lou Pickell killed a rattlesnake on Swamp Road, a half mile south of the Down River Grocery on West 72, on August 9. The snake was crossing the sand road and Lou ran over it twice with a front wheel, then beat it with a club. It measured eighteen inches and had three rattles.

This experience, plus seeing a bear on his place the evening of June 11, makes living in the "outback" interesting.

Could we have an article about these vipers? How to or not to approach one - and a special warning to children - What to do in case of a bite, etc.? It's better we are informed since they are being seen more frequently.

Mrs. Lou Pickell

Editor's Note: If anyone can give us the above information, we would be glad to print it.

GRAYLING, MICHIGAN — THURSDAY, AUGUST 21, 1975

Welcome Back . . .

Welcome back to the interesting world of your country editor.

We received a letter the other day, about a person killing a rattlesnake, and they wished advice on how to detect and guard against same — the letter appears in our "Mailbox" in this issue — Being from the northern part of Michigan, when we were young, we learned fast, to avoid all snakes, even those little green ones.

We do hope though, if any of our readers can give us any information on the rattler, we will be most happy to pass it on to all who are concerned, and that includes us.

Back to the lighter side of life — We understand Coach Tom is still crying over the fact that his younger brother, Mink, walked off with the trophies at the golf stag day sponsored by the Kiwanis last Thursday.

your week ahead BY DR. A.W. DAMIS

Forecast Period: August 24 to August 30

- ARIES**
Mar. 21-Apr. 19
Your chart features the possibility of increased social activities and the taking of past experience out of moth balls. So, it's a calculated guess that your past experiences will be utilized.
- TACRUS**
Apr. 20-May 20
Many members of your sign might become entrapped in the "worry circle." Actually, you'll be much too concerned about an event that takes place several weeks from now.
- GEMINI**
May 21-June 20
You're prone to become a "know it all." Make certain that you listen to instructions, follow rules and regulations. Ask questions if you don't know, otherwise there's big problems!
- MOONCHILD**
June 21-July 22
There's added responsibility at your job, task or project. Furthermore, your ability will be recognized and compensated, in one way or another. It's a good cycle for your career.
- LEO**
July 23-Aug. 22
Your activities with a younger member of the opposite sex are not favorable. Guard your pride and permit absolutely nothing to hurt your pride.
- VIRGO**
Aug. 23-Sept. 22
Things look great for most members of your sign. You're entering a seven day cosmic cycle when you can do no wrong. Take advantage of it!
- LIBRA**
Sept. 23-Oct. 22
Watch your diet, especially when eating out or traveling. There's a slight possibility that you might have problems with food. So, take basic precautions.
- SCORPIO**
Oct. 23-Nov. 21
In one form or another, most members of your sign will be treading into strange territory. Extraordinary and unusual situations are portrayed in your chart.
- SAGITTARIUS**
Nov. 22-Dec. 21
Avoid moral discussions concerning an associate's relationship with a member of the opposite sex. In other words, don't preach! You could become a prisoner of your own philosophy.
- CAPRICORN**
Dec. 22-Jan. 19
Setbacks are possible in affairs of the heart. Many under your sign, now, lack the considerations necessary to comfort the opposite sex. Shape up, Capricorn!
- AQUARIUS**
Jan. 20-Feb. 18
Avoid emotional wear and tear by delegating some of the responsibility connected with your job, task or project. You're inclined to spread yourself — much too thin!
- PISCES**
Feb. 19-Mar. 20
This forecast is an "if the shoe fits," sort of thing. So, if your relationship with the other sex is going from nowhere to nowhere, cut bait quickly!

The Bible Speaks

From Calvary Baptist Church

Eschatology
Today we begin a series dealing with future events in Bible prophecy. The theological name for such a study is Eschatology. We believe the Bible teaches a pre-tribulation, pre-millennial rapture of the Church. This position has been made popular in Christian circles by such books as "The Late Great Planet Earth" written by Hal Lindsey. Calvary Baptist Church held this position while Hal Lindsey was still in diapers.

The word millennium is Latin and means 1000 years. The millennium spoken about in the Bible prophecy means the 1000 year reign of Jesus Christ upon the earth from Israel. This 1000 year period is spoken of six (6) times in Revelation 20:1-6. Please read this section at your convenience.

To introduce our series, we shall present a panoramic overview of future events as prophesied in the Bible. Scriptural proof and details shall follow in weeks to come as we deal with specifics.

The next definite prophetic event on God's timetable is the rapture of the Church. At this event Christ will resurrect the dead of the Church age and translate all living believers so that together they receive their glorified bodies and ascend to meet Jesus Christ in the clouds of the air. The unsaved dead will be left in their graves and the unsaved living will face seven (7) years of terrible tribulation as described in Revelation chapters 6 through 19.

During these 7 years of tribulation upon the earth the raptured Church will appear before the Judgement Seat of Christ where we will be judged individually for our works to determine our eternal rewards or loss of rewards. Also during these 7 years Israel shall be purified as a nation and prepared to accept Jesus Christ as her Messiah. This tribulation will be characterized by natural disasters during the 3 1/2 years and by terrible world war during the last 3 1/2 years. This tribulation period will end with

the revelation of Jesus Christ with His saints to finish the greatest war in history at the battle of Armageddon.

At this time of Christ's revelation at the close of the 7 years of tribulation, all the evil economic, political and religious systems of anti-christ will be defeated and destroyed. The righteous dead that died during the tribulation shall be resurrected along with many Old Testament saints. This is the gleaming or last part of the first resurrection: the resurrection of the just. Satan shall be bound until the finish of the 1000 year reign of Jesus Christ.

During the 1000 year reign of Jesus Christ, He will rule from Jerusalem from the throne of David and fulfill all the Old Testament promises of blessing to Israel. He shall rule with a rod of iron as sovereign Lord over all the earth. Utopia will be established with peace, prosperity, health and many more blessings to continue throughout this period.

Following the 1000 year reign of Jesus Christ, Satan shall be loosed for a short season and will deceive the nations around the world. He will gather an army in rebellion against Jesus Christ. At this last war Satan will not only be defeated, but he will be placed into a lake of fire to be tormented for eternity never to be freed again.

Then follows the second resurrection or the resurrection of all the unjust who have ever lived upon the earth. The works of all the unsaved will be judged at The Great White Throne Judgement to determine their punishment in the lake of fire. Just as Christians will be rewarded for good works, the unsaved shall be punished by degrees for their evil works.

Following the Great White Throne Judgement all unbelievers or Christ rejectors shall be thrown into the lake of fire. This is called the second death, or eternal death because men will spend eternity dying yet never ceasing to exist.

Next week, the rapture of the Church. (adv.) Pastor Barnett

Frederic
Business
Association

Meeting was held Wednesday, August 13th at the Frederic Sportsman's Club. 7 members attended.

The financial report was brought to date. We were able to sponsor four Frederic Band students to summer music Camp Bil-O-Wood, at Blind River Canada. Hope all the band members enjoy themselves. Letter was received from State of Michigan, Dept. of Highways to forward 7,000 of our new "Welcome to Frederic" brochure, for distribution to rest areas throughout Michigan.

Any members of the Business Association who have not gotten the new brochures yet may pick them up at Newberry's General Store.

The next meeting will be held on Wednesday, August 27th at 8 p.m. at the Frederic Sportsman's Club. We sure would like to see a few new faces and get your ideas.

CARD OF THANKS

We want to thank Drs. Dosch and Burkley and the nurses at Mercy Hospital for their wonderful care of my brother, Russell LaFontaine, while he was there, and also those who came to visit and those who sent cards; also, to our Pastor Robert Taylor for his faithful visits and the ladies who prepared the dinner. Thank you all so much. May the Lord Bless you all.

Albert LaFontaine
and Family

"Check your business policies — you could be paying twice for the same kind of coverage."

"You may find you've got two policies that provide the same kind of business protection — and that's one policy too many."

"Worse than that, you're paying twice. As insurance professionals, it's our job to help you eliminate duplication of protection."

"We'd probably recommend an Auto-Owners Multi-Peril Business Insurance Policy that puts most coverages into one neat package. And one low premium."

"Why not give us a call. We'll be glad to discuss it with you."

Bits O' Talk

by Fay Bovee

Ken Gudenburg, 13-year-old cousin of the Richard Allens, had the thrill of his life when he landed a 16 1/2-inch rainbow trout in the East Branch just across from the Allen's home. He had been visiting them for a week and was due to leave on the Greyhound just an hour after he caught the fish. It was a happy boy that went back to Southfield on the bus with the fish safely wrapped and stowed on his lap for the trip home.

Mr. and Mrs. Elmer Fenton attended the First annual North Central Region Historical Conference held in the township hall in Elk Rapids on Saturday, August 9th. Two people from MSU gave a report on preserving the heritage of northern Michigan. Following lunch reports were given by the local historical societies. Elmer reported on the Crawford County Historical Society. Sixty people were in attendance, representing the historical societies of northern Michigan.

Mr. and Mrs. Dennis Cohoon and children have moved to Big Rapids where he is enrolled in pre-optometry at Ferris State College.

Ralph Routier has returned to his home in Oakland Cal. after spending two weeks visiting his mother, Mrs. Robert Roblin. Other guests of Mrs. Roblin who have also returned to their home after a short visit were her niece, Mrs. Thomas Curd, Jr., Miss Chandier Curd and Mrs. Charles Belleau, all of Roanoke, Virginia.

George "Sparky" Kraus of Phillipsburg, New Jersey arrived Monday for an extended visit with his parents, Mr. and Mrs. Albert Kraus, at Lake Margrethe. He has just finished an exciting trip "running the rapids" on the New River in West Virginia. A daughter and her family, Mr. and Mrs. Robert Swenson, Christy and Scotty, of Elgin, Ill. are returning to another visit with their parents.

Mr. and Mrs. Don Reynolds, Jr., of Kansas City, Missouri, and Mrs. Tim Kennedy and son, Kim, of Long Beach, Cal. visited their aunt, Mrs. Jessie Smock, last week.

Riparians Don't Own Bottom Land

By Willard Bosserman,

Riparian land owners at Higgins Lake don't own the bottom land according to Dr. Leighton Leighty, Michigan State University, Extension Resource Development Specialist. He modified his statement some by indicating that it was impractical to attempt to assign bottom land ownership on such a large lake.

I can hear Frank Carey now, "I got sued for an injury occurring on my raft which was anchored on my bottom land." "Not so," says Leighty, "the owner of a raft is responsible regardless where it is anchored."

Another modification of his last years statement is regarding riparian rights of a property owner whose property is crossed by a road or access. He further explained this by indicating that it depends upon the description of the deed. One property owner at the meeting described their property going down to the meander line which is some indication it goes down to the waters edge. The deed further stated that an access would cross the property. In this case Leighty explained, "the property owner has riparian rights."

Where the property description shows that the property ends at the road right of way they do not have riparian rights. The property across the road and adjacent to the lake belongs to the developer. It might behoove some of the heirs of the developers around Higgins Lake to see who actually owns the land between the road and the lake.

Road ends is a perennial problem. He elaborated on his answer of a year ago. Then he said no one has a right to build a dock at the road end. Saturday he said an individual or private group cannot use road ends or other public land for their own private use. This could be interpreted to mean that no one could build a dock at the road end. But, it is public property and the Department of Natural Resources could issue a permit for such a dock if it did not interfere with other riparian owner's rights.

Marine Cpl. Arthur J. Wilcox, son of Mr. and Mrs. John Wilcox of North Down River Road, will be arriving in Grayling September 2nd to spend a fifteen day leave. He is completing a thirteen-month tour in Japan and following his leave will report to his new duty station at the MCAS, Cherry Point, North Carolina.

Mr. and Mrs. Joseph Fleagle, Robert and Kimberley, of Chicago Ridge, Ill. are spending two to three weeks visiting her parents, Mr. and Mrs. Robert Winslow. The Winslows picked up their other daughter, Penny, in Flint, following her Mexican study and travel trip.

Mrs. Jim Knight and two sons, Darrin and Duke, and Jerry Weiss, son of Mr. and Mrs. Clyde Weiss, returned home last week after a month's vacation. They went from here to Crystal, Colo. where they visited Bob and Melody Durham. They continued on to the West Coast where they stayed for a week with Col. and Mrs. Bill Malt (nee Vivian Fenton) at Norton AFB. They went north to the San Francisco area before starting their homeward trip.

Judy Shively, a '75 graduate of Grayling High School has been accepted for admission to Ferris State College, with classes beginning there on September 8th. She plans on entering the school of business with a major in accounting.

Gail Hunter, daughter of Mr. and Mrs. Les Hunter, has returned to Atlanta, Ga. where she is employed as an audiologist. She had spent some time at her parent's home. MEMORIAL PLAQUE—Queen Johanna presents the Ella Weaver Memorial plaque to curator Elmer Fenton at the Society during the Mill-Town Festival. (Carroll Wert Photo)

QUEEN JOHANNA and her court pose for a picture in the museum during Mill-Town Festival. From left they are Jessie Smock, Lillian Clough, Queen Johanna, Laura McLeod and Sadie Brady. Missing from the picture is Wilma LaGrow. (Carroll Wert Photo)

The Mill-Town Festival got under way at 12:00 noon Thursday August 14th at the Historical Society Building. Johanna Gorman, Centennial queen, presented Elmer Fenton, Curator of the Society with an engraved pewter plaque in honor of Mrs. Ella Weaver who was in the Queen's court at the centennial 3 years ago. Mrs. Weaver died last October. The plaque will be on display at the society and serve as a memorial to Mrs. Weaver.

If you have visited the museum this year, you should. You will be surprised at the many new things added. Space does not permit their description but see them and read their history and where they came from. See and read about a fish reel and it's mold made by hand nearly 100 years ago. Loaned to the Society by Fred Horak from the Recreation Club.

An ox yoke loaned by Mrs. Jean Wakely. Used around the turn of the century when fisherman came to Grayling by train and were met by the team of oxen and transported to clubs down the river. A set of upper false teeth dug up in Perecheney and brought in by Mr. Edwin Harris. The structure of the plate seems to be made of silver and has several teeth still attached.

A pike pole loaned by Mrs. B. Moore, used by her father and uncles about 85 years ago for moving logs. The box with all it's contents taken from the corner stone of the old court house. We hit the jack-pot when Mr. and Mrs. Arthur Wakely Jr. loaned us a stuffed Canadian lynx shot by Mr. Wakely's father in 1882. It is in excellent condition.

Mr. Fenton has built a glass case for it so no harm can come to it. You must read the history of how it left Crawford County many many years ago and how it was returned to it's real home.

Did you notice the large sign in front of the museum donated to us by the City of Grayling? They got it from the Fish Hatchery and has a fine description and history of the Grayling fish. We are grateful to the city for all they have done for us.

We think we have one of the finest collections of pictures in any museum around. Mr. Fenton has framed most of them and has done a fantastic job of grouping them along with their history. He has traveled Crawford County from end to end to get this history.

We have load of more interesting things to tell you but not enough room this week. Take a day off and see and read for yourself and don't forget to join up with us. We need you.

ALMANACK

Richard Milliman

**Are there fish hooks in reform?**

A few weeks ago, Humphrey was quoted as saying he was finding it difficult to resist pressure for him to run again.

"All kinds of people around the country talk to me about running," Humphrey said recently.

"As a matter of fact it's kind of difficult to resist, to be honest with you."

That was even before President Ford tagged the effervescent Minnesotan as his most probable opponent in 1976. What do you suppose is going through Humphrey's mind now? If it was difficult to resist before, it must be unbearable now.

As the time of the election draws nearer, the pressures on Humphrey to get out and get going will increase; Sen. Humphrey, being the kind of individual he is, very likely will apply much of the pressure himself.

The way it looks now, Democrats will go into their nominating convention next summer with about 112 avowed candidates, and 1,475 statesmen standing in the wings ready to become a compromise choice to bring the party's elements back together again.

Bear it in mind: Hubert Humphrey may not be such a bad choice after all.

AMERICA HOOKED

Here are some words to ponder, delivered by Patrick J. Lucey, governor of Wisconsin, in a recent address to the Tennessee Young Democrats Convention:

"The government of America, the politicians of America, the people of America, are hooked. They are hooked on the philosophy of a chicken in every pot, two cars in every garage, and the right to claim more chicken, larger pots, and bigger, gas-guzzling cars.

"Few have had the guts to say it is time for 'cold turkey'."

"Well, let it be said today—it is time for America to get unhooked, to for the 'cold turkey' route," to adopt a new Politics of survival, and a new philosophy of government based upon scarcity."

Doctor or mechanic?

Last week was confusing. Both my car and my wife were laid up for repairs and I kept getting the mechanic mixed up with the doctor.

There were incredible similarities in the 2 cases. At one point I told a worried daughter her mother had a fever because there was something wrong with her thermostat. And my son just nodded when I told him the car air conditioner wasn't working because there was something wrong with his pancreas.

The mechanic told me to bring my car in early Thursday morning and he would get right at it. I could probably pick it up that evening, he said. 5 days later he hadn't touched the car. It just sat at his shop and got dirty. Apparently he like to have it nearby to wipe greasy rags on.

My wife entered the hospital on a Friday "for tests". The doctor thought it might take a couple of days. She was still there a week later. The doctor kept scheduling X-rays and blood tests that never came off on time because somebody forgot to tell somebody. But it was handy having her nearby so they could make sure she didn't eat anything she liked.

At least she didn't get dusty, like the car. But nobody woke the car at 5:00 a.m. delivering wilted roses that had "somehow" been in the wrong hospital room for 2 days. Honest, it happened.

I usually couldn't get the mechanic on the phone. I most often talked with his assistant who might have been a recording. He always said the same thing: "I don't know. You'd better call back. Yes I'll tell him you hate him and that I could hear you sobbing over the phone."

When I did talk to the mechanic, I never understood a thing he said. If I knew what all those queer words

meant, I could fix the lousy car myself. The only message that came through clear was that several other poor owners were having the same trouble with the same model car. This was as comforting as being told I should cheer up because I was dying of something contagious.

I only tried to phone the doctor once but it was his day off. It was also his nurse's day off. I told the girl on the switchboard I was dying and she put me on hold.

It really wasn't necessary for me to talk to the doctor because my wife could tell me what he was saying. This is one advantage in marrying a woman instead of a car. What he was saying was that they should take some more tests tomorrow. Which really meant 2 days later because the person responsible for arranging tomorrow's tests was busy trying to find a new place to hide roses.

If I ever do talk to the doctor, I am going to thank him for starting me on a 2nd career. I am going to open a pharmacy and sell the medicine my wife can no longer take because it makes her sick. A pill usually makes her sick a few hours after she's filled his \$20 prescription at the drugstore in the doctor's waiting room. So he says don't take anymore of those pills, buy some new ones, I now own 5 million pills which I am willing to sell at a loss. Each pill is accompanied by a sworn testimonial from my wife. She guarantees it will make you sick.

I trust the mechanic and the doctor realize all this is really good-natured kidding, ha ha. I am only writing about them so as to have an excuse to say something romantic to my wife.

I want to say publicly that I missed her a lot more than I missed the car. Of course, I own a 2nd car...

"Main Stream Musing"

Make No Mystique

(By Jaymee Seidel)

One of those experts in the role of modern women says that housewives have lots of skills that can be translated into the business world, if only they knew it.

I'm sure she must be right. Still, it bothers me that I don't see a lot of want ads for sock makers, cold lunch packers, or fish tank siphoners.

The other day I went into an employment agency. The man at the desk said, "Well, as you know, women have been invading pro sports lately. So we have an opening for a lady referee. I don't suppose you've had any experience along those lines?"

"Are you kidding?" I retorted. "With my 5 kids? That allows for 20 possible sibling conflicts. I spend about 6 hours a day just refereeing."

He seemed impressed. "And here is a job in industry, on an assembly line. They'll train you, but you have to be able to do different operations with each hand. Think you could handle that?"

"Listen, Bud," I replied. "Sixteen years I've been twisting the cap off a bottle of almond flavoring with my left hand while stirring up a cherry pie with my right."

"Hmm," he said. "Now, here's one for a bus driver. I'm sure that's out of your reach."

"What do you mean?" I cried. "I drive my son to swimming, my daughter to ballet, both of them to piano lessons, and myself to the grocery, filling station, and beauty shop. Never missed a passenger yet."

"This one is probably too sophisticated for you. They need someone to grade pre-school readiness tests. The children are to find the pairs of pictures that match."

"Right up my alley," I smiled. "I spend part of every day matching up socks in 37 colors and 4 different sizes."

"Well," he replied. "We're not doing badly at all. I don't suppose you could write copy for a television station, tho?"

"You are looking at an experienced writer. How does a letter a week to each of two grandmas grab you?"

He gave me a pile of applications, led me to a desk, and

handed me a ball point pen that still had the ink cartridge in it. It had been so long since I'd seen one that had not been dismantled by a curious kid that I stared at it, fascinated. Finally I started filling in the top line. I was doing OK until I got to the blank that said: "Occupation:" After all I had discovered about my hidden talents, I couldn't bring myself to fill in just "housewife." And there wasn't room for "domestic engineer." At 5 o'clock the guy had to throw me out so he could lock up. But I'm going back, just as soon as I figure out what to put down.....

TURN ON'S

TELL ME ABOUT YOUR GIRL FRIEND.

WELL, SHE TAKES WHAT IT TAKES TO GET WHAT I'VE GOT.

For the eighth year in a row the Michigan National Guard hosted children here from all over the state at their summer Boys Camp. Enrollment in the program has steadily grown from just a few youth the first years to a total of over 300 campers in the 1975 program. Each boy spends a week in the program and is housed at Camp Grayling.

"The Boys Camp had been an unqualified success," states Col. Albert W. Lesky, Dir. of the program. He said that half the youths are from the Detroit area and the remainder come from all over the state. 1975 marks the first time Grayling Area youths have participated in the program, with nine boys recommended by the sheriff's department. Referral to the program is by Probate Courts, the Foster Home Program or the Big Brother program.

The primary purpose of the program is to provide a good summer environment for the boys who otherwise would not be able to afford it. Activities at the camp include trips to Fred Bear Museum and other local tourist attractions, cook-outs and canoe trips with the Boy Scouts, personal health instruction, and a very popular "Junior Olympics" program of instruction and competition in archery, basketball, softball, broad jumping, 50 - yard dash and more.

Ages for youths in the program are 10 to 14, with a few self-sufficient 9 year olds included. They are cared for by counselors who are usually full time guardsmen taking their annual leave time to work in the program. Local residents also lend a hand in helping out with the "Junior Olympics" program. Funding for the program was first done by the National Guard Units involved, but for 1975 the program was funded by the Michigan Military Affairs Department with a budget of roughly \$2,500. The program is currently under the jurisdiction of the Equal Opportunity Office.

Social Security Tax Rebate

Most recipients of Social Security or Supplemental Security Income should have received with their tax rebate a special payment of up to \$50. But the Department of Social Services is concerned that some recipients may have unknowingly missed the bonus.

Anyone who was entitled to either a Social Security or an SSI benefit in March 1975 was to have received the bonus. August 31, 1975 is the deadline set for having payments not yet made approved by the Social Security Administration office.

Joseph J. LaRosa, deputy director of MDSS, stated "the bulk of these rebates should have been sent and received by the clients now. But any recipient who has not yet received a separate \$50 payment from the Social Security Administration should contact the local SSA office without delay."

LaRosa has also asked county workers to assist clients in claiming the bonuses that are part of President Ford's tax rebate program. At present, the department is unsure how many recipients have not received the bonuses, but urge those who haven't to take advantage of the rebates they are entitled to receive.

Attend The Church Of Your Choice Wild Blue Yonder

It's just an old toy—yet in his imagination this boy can climb to supersonic heights with it.

In his fancy, he is at the controls, soaring high above the earth. One step more, and he will pilot a rocket to the moon.

It may well be that these dreams, moon and all, will someday become reality for this young man. Meantime, there is countless wonder and joy in his boyish fancies.

There should be countless wonder and joy, too, in his church experience. Non-churchgoers are apt to think that religion is a dull, dour, fearsome matter. Rather, it should be one of the most glorious parts of life.

Look deeply into your own religion. Go to the church of your choice this Sunday.

Jack Pine's Stump

I thought the Milltown Festival was terrific! Almost as good as the final week of the Centennial. But as I drove around and around looking for a parking spot so I could get to the drug store (no success), I was tremendously impressed with the many sidewalk sales the downtown merchants were having. I guess there were even private individuals who had products or services to render.

Almost every sales area was jammed to the sidewalk with pedestrians, hopefully buying, not just looking. I guess, I like many in the area, felt that with the development of the several shopping malls south of town, that our downtown area would just plain die. But it didn't, although I do suppose that some of the merchants must have spent considerable time in a depressed state, suffering from an imagined case of the Economic "No-Hell-on-Aids". Then came the changes.

The most significant and satisfying change happened when Weaver's Gifts brought that sad eyesore which was always called "The Corner Store". I watched in utter astonishment as the owners completely renovated, remodeled and made very attractive what is probably one of the oldest buildings in town. And it was done in the Milltown idea. Before, during and after this happened, other merchants did the same. When the Northland store was renovated, recently, Sorenson Insurance Agency and the Credit Union moved in. When the store next to Mac's Drugs was given up by its previous operator, Larry Mac grabbed on to it for an expansion of his ever-growing Retail business. Good for him. The only empty building left in the old tank building - more or less vacant for quite a few years, I would imagine that a bank of that size here was a liability of a dead pile.

I found out when I was trying to give me the shaft on my job. One was an obvious suspect, but the other man really astounded me. He's an X-ray technician, high respect, and a man of many talents. He did what he thought was right, and in view of what he was told, he had little choice. But he never let me see him and most people who were two sides of the same coin were left with a bad impression of each other.

Sadly, I was unable to attend the ending of the Milltown Festival. The Beaver Creek Sorenson Funeral Home at the end of the festival, I got into a car and couldn't get out. I was in the Grayling Booster Club and the Association. The Beaver Creek has a tremendous group of workers, all of whom have other jobs. As for Mitch, he was a member of the Beaver Creek Club and was cleaning up the place at 10 a.m. I was at the Association and was up at the working on the breakfast. Dear God, you can bet your sweet butt. But then he's a Club member and that makes one believe a lot of difference.

While on the subject of the Milltown event, I just gotta mention the Grayling Historical Society - one lady, and most inappropriate, referred to by some local experts as "the Grayling" and a friend. The group is not a club, but a society, temporary, but a sure needs a lot more members. It is this community's to have any permanent record of its great and glorious past. Can't we will you help?

Remember when, quite a few weeks ago, I wrote about my total distaste of cats? Well, I got a few phone calls and one letter. It's obviously written by a cat-loving woman. No signature - just initials, but I feel that cat lovers and cat haters will both

Frederic News

by Arlein Kesby
Mr. and Mrs. Richard Kage of Washington, Michigan spent a week at their trailer, also, their daughter and husband and family spent two days with them.

Mr. and Mrs. Richard Dowland and family spent last week in the U. P. and had a very nice time.

Mrs. Frank (Eunice) Weaver is now home from the hospital after spending 17 days.

Mr. and Mrs. Jerry Pratt and family, and Mr. and Mrs. Ted Pratt spent Sunday in Buckley at the old timer's Engine Show. It was a very nice experience. They saw many old steam engines, threshing hay, and saw many old fashioned cars in running condition.

All Frederic Kindergarten kids will be going to school in the morning this year as was hoped by the parents.

Frederic Hobby Club
The Frederic Hobby Club met at the home of Mrs. Updy Graham on August 14 with 5 members and 1 guest present. Jackie Kaiser had a report on her stay at Girls State. We talked about several projects. Mrs. Merna Newberry won the door prize. The next meeting will be August 28 at the home of Vi Middleton. This will be a social meeting.

Roscommon Dial-A-Ride Growing

by Willard E. Bosserman, County Extension Director

Ridership in Roscommon Counties Dial-A-Ride increased from an average of 35 per day in May, to 65 per day in July, according to Don Bradley, Dial-A-Ride manager.

By increasing the riders per day, they were also able to cut down on the average number of miles per rider from 17 miles to 12 miles in June and 10 in July.

I spent a couple of hours in the "depot" recently. I was impressed with the number of calls they were receiving for rides. What's more important, I was impressed how soon riders could be picked up. That particular day one of the buses was down for a couple hours getting a new starter. This didn't hinder ridership greatly. The other two buses were able to pick up the slack.

Sometimes riders can't always get as direct a ride as they might like. We have a new Neighborhood Youth Corp employee in our office who lives in St. Helen. Dial-A-Ride did not have a direct route from St. Helen to Roscommon at 8:00 a.m. but was able to pick the rider up in St. Helen, bring her to Prudenville, where she could take a bus to Roscommon in time to go to work by 9:00 a.m. This service will only cost the girl \$5.00 per week by buying a roll of tickets. You can't hardly drive your car for that, it will be more true as the price of gasoline creeps upward.

Some of the county employees who live in the Houghton Lake area are regular riders of the system.

Bradley believes the ridership will pick up as Kirtland College begins fall classes and when the winter snows discourage some drivers.

Bradley expresses his desire to add another bus by 1977 to expand the service over Friday evenings and Saturdays. "A fourth bus would also cut some of the long trips per passenger", he said.

Thought About College?

you should know more about... KIRTLAND

If you're thinking about going to college!

Kirtland Community College is one of the fastest growing colleges in northern lower Michigan.

Kirtland offers academic, technical and career training for today's student. The Associate of Arts Degree program is designed to provide students with the basics in Humanities, Social Science, Mathematics, Sciences, Physical Education, and Recreation.

The program allows 41 additional elective credits to meet the required 62 hours for an associate degree.

This means that you can transfer the 62 hours earned at Kirtland to a four year college or university and start at the junior level.

Kirtland also offers... OCCUPATIONAL CAREER PROGRAMS in the following areas:

Police Administration
Practical Nursing
Quality Control
Welding
Building Technology
Business
Child Care Specialist
Civil Technology
Cosmetology
Drafting and Design Technology
Electro Technology
Manufacturing Processes Technology
Natural Resources Technology
Apprenticeship Program
Automotive Technology
Aviation Maintenance Technology

If you're a veteran!

Qualified Veterans receive monthly allowances ranging from \$270, if single, to \$366.00 if married with one child, plus \$22.00 for each additional dependent, if attending full time. The amount received depends on course load and dependents, I.E., three-quarter time student veterans would receive \$203.00 if single, \$240.00 if married, and \$275.00 if married with one child, plus \$17.00 for each additional dependent. Remember, Veterans who were discharged between 1955-1966 will lose their eligibility for educational benefit in May of 1976.

If you're concerned about the cost of education!

The least expensive way to get your education is to live at home and attend Kirtland, a low-tuition community college.

The cost for one year of college in a public FOUR YEAR institution for Michigan students averages \$2,636.00. This figure is based on living on campus.

Your family could save THOUSANDS OF DOLLARS in just two years. You can attend Kirtland for \$10.00 per credit hour for tuition. This means a full student load for one semester would only cost \$150.00 for tuition. Why not attend Kirtland and then transfer two years of credit to the four year institution of your choice?

(Tuition subject to adjustment, if mandated by the State Legislature)

An exceedingly valuable guide is "Student Expenses at Post-secondary Institutions, 1974-75," available for \$2.50 from the CSS, College Entrance Examination Board, Box 592, Princeton, N.J. 08540. Check out the facts for yourself! Kirtland has the best educational deal you can get for a quality education.

If you're a Senior Citizen!

All of Kirtland's courses, including specially designed classes to make the lives of retirees and senior citizens more interesting and exciting, are offered at no tuition cost to persons 60 years or older and their spouses. Enrichment, recreation, hobbies and self-improvement courses are offered without restrictions relating to age, educational level, and background.

If you need child care services!

Kirtland offers quality care for children of working mothers who wish to have their child benefit from an enriched developmental pre-school program.

This service provides opportunities for the child's Social, Emotional, Physical, and Intellectual development. Parental involvement is encouraged through: observation, conferences, participation, and educational programs.

The Child Care Center meets all the requirements for Michigan Licensing and Federal Certification.

Eligibility - Children ages 2 1/2 to 6 years of age are accepted. This service is open to all parents and children in the community as well as college students and employees.
